That all sounds good. Yes, I had a great vacation visiting family in a rural area of Utah. Many kinds of machines were driven. I hope you had a good one too.

No, Nancy won't be on this next call. She is out until sometime next week. One thing I heard is that the bump-up final notice is expected to be signed on Aug 7. We will see if that prediction comes true. If it does, it sets in motion a number of SIP submittal and implementation deadlines, as well as a new attainment date of course, all for the 2008 std. For the 2015 std, I will have to scout around to see if I can find any details before Fri.

I am always generally able to discuss section 185. Perhaps in our discussion we can aim to see what the specific questions would be for SD's situation. I have spoken with the district about it before, but that was quite a while ago (hey, Nick!). Normally the submittal date would be 10 years post designation, making the deadline July 20, 2022 for SD for the 2008 std. But that would be easier to get behind if we were talking about an area that was already severe. Not knowing if or when that classification would apply makes me wonder if we would simply have to propose and finalize a submittal deadline, as we would do for other SIP elements. In that case, our rule of thumb is a year after the effective date of a bump-up. The district could add applicability for the 2015 std too, in order to save themselves the effort later. But that submittal wouldn't be due until Aug 3, 2028.

I will stop there and save for the discussion. I think what I just wrote is consistent with what I discussed in the past with the district.

Cheers. JK

Hi John,

Thanks for your email today inquiring what will be on the agenda for this Friday's phone call regarding the San Diego SIP. Hopefully you had a nice vacation!

I am forwarding Nick's email below that he sent while I was out of the office. Besides the items he mentioned, one other possible item is Section 185 Fee Program and Due Date Requirements. I will try to finalize the agenda today or tomorrow. I was away myself until yesterday so I'm getting caught up on emails and work.

That's too bad that you have not received any direction from HQ regarding the RACT deadlines. Yes, as you suggested, if you can reach out to them to ask what their timelines on the rulemakings might be, if that is what is holding them up regarding RACT deadlines, that would be great, or any information that you can obtain from them that might provide some direction.

You mentioned Nancy is on vacation. Will she be back for the Friday phone call?

Thank you.

Sincerely,
Stephanie

Hi John,

I don't have anything pressing on my end. I think Stephanie is on vacation so I'm cc'ing Carol Sutkus in her absence in case she wants to add anything to the list below. Just in looking through my notes, I think we'd probably want to get updates on the following topics at the next meeting:

- RACT Demonstration
 - Previous calls indicated you and Nancy Levin were working on a document laying out timelines for each ozone standard, but were waiting on HQ for further direction. Any update on that?
- Contingency Measures
 - APCD/ARB are in waiting mode on whether the San Joaquin Valley APCD's contingency measure proposal in their SIP will be finalized/approved. This involves 1 local measure and 1 state

measure. Any updates on whether this was an acceptable method to use so that the District/CARB can use a similar setup with SD's SIP?

- Milestone Compliance Demonstrations (MCD's)
 - Any updates in terms of EPA publishing guidance for air agencies to follow? SD's first MCD will be due in 2021. Without EPA guidance, SD will use a recent South Coast example as a model.
- 2008 ozone standard revocation status
 - I heard on the CAPCOA call today that there wasn't any news to report on this effort. If there is anything new learned between now and the next meeting, we'd be interested to hear about it.
- Status of final "Moderate-to-Serious" reclassification action
 - Any update you might have on when it will be finalized, if it hasn't been done by August 2.

Have a great vacation!

Regards,

Nick Cormier

Hi Stephanie and Nick – I will be on vaca from tomorrow through Monday 7/29. Just wanted you to know in case any agenda ideas needed to be worked on. I will be back on Tues 7/30, so I will be available for a short window before this Aug 2nd call. If you have any ideas now, please let me know today. I could perhaps pull in a person or two here who could help in my absence. Thanks, John

When: Friday, August 2, 2019 2:00 PM-3:00 PM (UTC-08:00) Pacific Time (US & Canada).

Where: 720

Adding US EPA, Region 9 staff for this August 2 phone call.

Just making some slight cleaning up to the appointment but nothing has changed for you as meeting invitees.

Stephanie

Hi Everyone,

Resending as the recurring appointment was set to the first day of each month rather than the first Friday. Sorry about that.

Sincerely,
Stephanie

Hi Everyone,

This is will be the first meeting of the first Friday recurring monthly meeting regarding the San Diego SIP.

The agenda will be added later.

Sincerely,
Stephanie
